			PRON8URE <sup>®</sup>	300 Million CFU	

# The percentage of the National Research Council (NRC), 1989 maintenance requirements for a 500 kg horse.

### PROPERTIES:

#### Australia and New Zealand

FARNAM<sup>®</sup> VITAM<sup>®</sup> PLUS HEALTH & VITALITY<sup>™</sup> with 12 vitamins, 9 minerals and PRON8URE<sup>®</sup> is formulated to improve feed nutrient value by delivering nutrients which may be missing or undersupplied in common feedstuffs. It provides high levels of vitamins and minerals, and PRON8URE<sup>®</sup> multi-strain probiotic, to assist in achieving optimum performance for growing, exercising and breeding horses. PRON8URE<sup>®</sup> is a blend of live viable microbes which benefits the horse by improving its intestinal microbial balance. These microbes are safe, non-toxic and residue free. PRON8URE<sup>®</sup> helps to improve the general health and performance of the horse. It reduces digestive disturbances and upsets, stimulates appetite, optimises digestion of feed and reduces stress naturally. PRON8URE<sup>®</sup> also helps to establish (immature animals), re-establish (after antibiotic treatment) and maintain a balanced gastrointestinal microflora.

### DOSAGE & ADMINISTRATION:

#### (Australia)

**RESTRAINT:** PRON8URE<sup>®</sup> should not be used in conjunction with Penicillins, Cephalosporins, Tetracyclines, Avoparcin, Gentomycin, Lincomycin, Streptomycin, Tiamulin or Tylosin, but may be used immediately following these antibiotics.

#### (New Zealand)

**RESTRAINT:** Using concurrently with some antibiotics may compromise beneficial effects. PRON8URE<sup>®</sup> efficacy may be reduced if used in conjunction with some antibiotics. Please contact International Animal Health Products for advice regarding the use of PRON8URE<sup>®</sup> in conjunction with antibiotics.

#### (Australia & New Zealand)

VITAM<sup>®</sup> PLUS HEALTH & VITALITY<sup>™</sup> should be provided daily to ensure correct intake. For best results use in conjunction with CALCIPLEX BONE AND JOINT<sup>™</sup>. For individual use, mix with dry feed either morning or night meal. One level scoop contains 35 g.
